

## Introduction

Casper is a music player app that allows users to listen to music offline and online. The app collects some user data in order to provide the best possible experience for users. This data may include the following:

- Device information, such as the device's make, model, and operating system
- Device location
- App usage data, such as the songs that users listen to and the length of time they spend listening to music
- Advertising identifier
- Files downloaded inside the app

## Data Sharing

Casper may share user data with third-party partners for the following purposes:

- To provide and improve the app's functionality
- To deliver targeted advertising
- To conduct research and analysis

Casper will not share user data with third-party partners for any other purposes without the user's consent.

## Data Security

Casper takes the security of user data very seriously. The app uses a variety of security measures to protect user data, including:

- Data encryption
- Access controls
- Auditing

However, some application or user information may not be encrypted during the collection or sharing processes if it falls under our 'Not-Confidential' category.

## User Rights

Users cannot access, correct or delete their data after the collection or sharing processes. However, their data gets automatically deleted after 90 days.

## Changes to the Privacy Policy

Casper may update this privacy policy from time to time. Any changes to the privacy policy will be posted on the app's website and will be effective immediately.

## Contact Information

If you have any questions about this privacy policy, please contact Casper support.
